QUESTION TWO – 60 MINUTES (30 MARKS)

- o All questions need to be answered by **circling** the appropriate answer on the question paper itself
- o **STOP** when instructed and place paper face down on your desks

2.1 The images below show an object FLOATING IN THE MIDDLE of a 'glass box'.
Below it, is picture of the object, in a new viewing position.

You are to;

1. look at the picture of the object taken from the new position
2. imagine yourself moving around the 'glass box', to find the corner from which the picture was taken.

3. **Circle that corner**

Each question has only one correct answer

Illustration above (Figure -1) is an aerial view of the school. A steel frame structure (4m high & 6m wide) is already in place at the entrance of the school as indicated.

You are provided with;

- 0 1) 36 units of empty steel barrels, sizes as in Figure 2.
- 0 2) 6 units of 10.0m long Ropes.
- 0 3) 6 units of 6.0m long x 100mm diameter Bamboo Poles.
- 0 4) Colour Paper and Paint to your choice.

Figure - 2

1. a: Design a decorative 'Entryway' using the steel frame and only with the resources provided. Explain both design solution and the construction process with three dimensional sketches in the space provided on page 3. **(35 MARKS)**
1. b: Imagine you are standing at the location, either 'A' or 'B' on the day of event and draw your view of the scene 'Guests arriving through the entryway' with correct background details, in the space provided on page 4. **(35 MARKS)**

QUESTION ONE (70 MARKS)

'Navodya Central School' is planning to host its annual Prize-giving Ceremony in next week. As a member of the organization committee, you have been asked to design and construct a decorative entryway to the school premises, to welcome the guests attending this event.
